Are you moving within the Five Boroughs of New York? If so, I highly recommend hiring Ibra Seck's company, City Courier Moving Service.

I recently moved from a 5 bedroom apartment into 3 floors of a Brownstone.

The move was a difficult one, because of the amount of clothing, books and the amount and size of the furniture. Ibra's work force skillfully moved furniture and boxes up and down stairs and into tight areas.

My experience with Ibra was outstanding: Ibra's pricing was fair and reasonable; his workers were experienced and careful, they did not damage one piece of furniture, and they were able to carefully and skillfully move and place furniture in places I did not think the furniture would fit.

Ibra is an outstanding, honest and courteous gentleman with experienced employees who are equally outstanding, honest and courteous. These men new their business and were willing to work hard for two days from 9:30a.m until 2.a.m. the next morning in order to get the job done on time so we could comfortably move in while courteously accommodating any suggestions.

Several months ago Ibra moved my office as well with the same courteous accommodation, carefully handling my antique furniture and charging a fair and reasonable price.

I trust you will find Ibra's City Courier Moving Service the best moving service in the Five Boroughs of New York City.

Sincerely,

Tony Nocito
